

## Current Controversies

Advanced communication technology means that people are increasingly confronted with diverse and contradictory information. During the Persian Gulf War, for example, the public was not only treated to minute-by-minute coverage, it was also inundated with critiques of the coverage and countless analyses of the factors motivating U.S. involvement.

To help students, researchers and the general public sort through the maze of opinion, *Current Controversies* examines often sensitive social, political and economic topics from many different angles, fostering the development of critical-thinking skills.

Each chapter asks a pertinent question about the topic, and the viewpoints that follow are grouped into “yes” and “no” categories. From political debate to environmental topics, *Current Controversies* delivers balanced insight suitable for readers from high school to college and beyond.

### COMPREHENSIVE COVERAGE

This anthology series covers today’s most current national and international issues and contains the most important opinions of the past and present. The series expertly introduces the reader to all sides of contemporary controversies in an objective and comprehensive way.

Each anthology is composed of a wide spectrum of primary sources written by many of the foremost authorities in their respective fields; the authors represent leading conservative, liberal, and centrist views. This unique approach provides readers with a concise view of divergent opinions on each topic.

Extensive book and periodical bibliographies and a list of organizations to contact are also included. The *Current Controversies* series will prove invaluable to libraries and classrooms in need of materials on today’s leading issues and controversies.

### WHAT DOES *CURRENT CONTROVERSIES* BRING TO YOUR COLLECTION?

#### Original content

All content in *Current Controversies* is unique to the series, with no overlap between other Greenhaven Press “Current Issues” series or titles.

Content includes primary and secondary sources such as speeches, government documents, periodical articles, book chapters, pamphlets and association publications. All viewpoints are no more than five years old, and at least 75% are published within the previous three years.

#### Helpful features in every book

- Annotated table of contents
